

# We have always worked to the highest standards. Yours.

No one works to higher standards than the pharmaceutical and biotechnology industries. For more than 60 years, Sheffield has been driven by those standards in media optimization for a large range of bacteria, yeasts, molds and mammalian cells. You may have known us as part of Quest International or Kerry, but throughout our long history, Sheffield Pharma Ingredients has always been dedicated to meeting the unique demands of the pharmaceutical industry.

When you rely on Sheffield Pharma Ingredients, you can be certain you will receive superior technical and customer support, access to cGMP compliant manufacturing and a partner in risk mitigation. From the beginning of product research and development to the end of your product's life cycle, Sheffield will be there every step of the way, anywhere in the world.

To find the highest commitment from an experienced partner that works to your standards, visit us at [sheffield-products.com](http://sheffield-products.com) or call a Sheffield expert near you.

# We have always worked to the highest standards. Yours.

No one works to higher standards than the pharmaceutical industry. For more than 65 years, Sheffield has been driven by those standards in the manufacture of pharmaceutical grade excipients such as lactose, glycerides, coatings and flavors for innovative drug delivery systems. You may have known us as part of Quest International or Kerry, but throughout our long history, Sheffield Pharma Ingredients has always been dedicated to meeting the unique demands of the pharmaceutical industry.

When you rely on Sheffield Pharma Ingredients, you can be certain you will receive superior technical and customer support, access to cGMP compliant manufacturing and a partner in risk mitigation. From the beginning of product research and development to the end of your product's life cycle, Sheffield will be there every step of the way, anywhere in the world.

To find the highest commitment from an experienced partner that works to your standards, visit us at [sheffield-products.com](http://sheffield-products.com) or call a Sheffield expert near you.
